

# Switch Collections

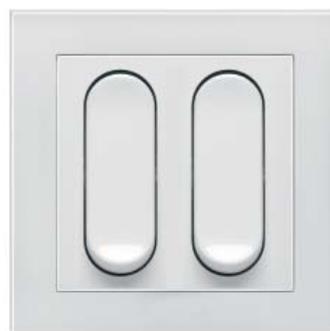

# NOVA tangenta – invigorating interaction of form and function.

## Unmistakable, independent and original

NOVA tangenta\*. The exclusive range of switches for creative, unmistakable home styling. Characteristic – the ergonomically shaped toggle panels. Creative – the varied combination options of the functional elements and colours.

# NOVA brilliance – eye-catching high-gloss finishes!

## Always makes a brilliant impression

NOVA brilliance\* catches the eye with its solid and deliberately angular frame. Together with its high-gloss finish, this new star in the switch 'sky' is a brilliant highlight of any room design.

# AURA Glas – sophisticated design from understated to expressive.

## For every style the perfect design

---

This range of switches owes its special attraction to the combination of proven technical features and precious glass frames with a variety of delightful finish options. It's clear that switches like this are not seen every day!

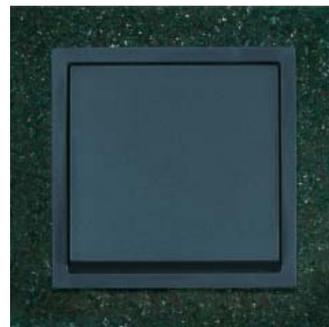

# AURA Stein – first choice for anyone seeking the extraordinary.

## Stone – a material symbolising naturalness

---

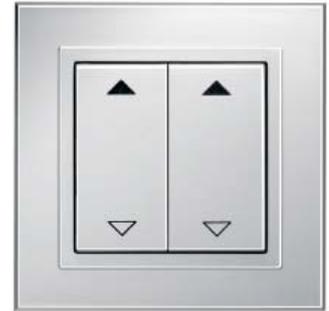

Discover for yourself how attractive one of Nature's most basic materials can look as an embellishment for a range of switches. Five fine, solid types of stone and marble are used for these switch frames. Each and everyone unique.

Socket systems

# AURA Basis – perfect for customers preferring the straight approach.

## Launch into the world of AURA designer switches

The plastic version of the successful AURA range impresses with its ultra-clean straight-lined design. In this way, you can make a timelessly attractive design statement at an affordable price. AURA Basis is a collection that always fits the bill!

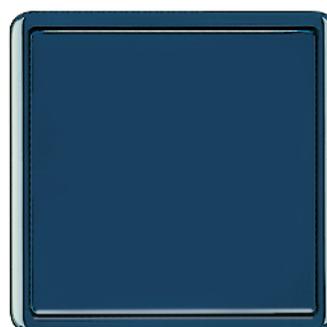

# DIALOG – a timeless classic with two design options.

## For every style the perfect design

DIALOG switches, whose look is dominated by the broad toggle panel, make a strikingly elegant impression. Of particularly high quality is the DIALOG exclusiv range - elegant decorative frames in gold or chrome give the switches their own special flair.

# STANDARD – the tried and tested range of switches for all purposes.

## Unsurpassed in their versatility

---

Thanks to their understated design in a variety of shades of white and wide range of application options, STANDARD switches fit simply everywhere, whereby their inline combination frames additionally underline their regular, well-proportioned looks.
